+ART

we don't just interpret materials, we create ceramics

Our Method

What makes unique is our advanced POSH + Carving Surface on Terrazzo, which includes 3 phases that equally important

1 Inspiration

An idea can be inspired by nature or by imagination. A stone, a wall or a painting. The ARTistic creativity and intuition transform them into a material for architecture.

2 Making

To create the material you need the skill of an ARTisan, machines and ceramic know-how, aesthetic culture and a passion for design. And you need tough and painstaking development work.

3 Assortment

The added value of Ceramica Sant'Agostino lies (also) in creating every collection as a solution kit for architecture, with matching colours, sizes, patterns and surfaces, designed to dress spaces and styles with technically impeccable solutions.
