WHERE
DESIGN MEETS
CARVING SURFACE

A beautifully carved surface that adds depth, texture, and character to every tile, creating a luxurious visual impact while enhancing grip, durability, and a sophisticated architectural feel in modern spaces.

Application Areas:

The 600x1200mm format is considered the "golden ratio" of modern architecture. Its rectangular shape and textured carving finish make it suitable for a wide range of high-end interior and exterior applications. Create a seamless, expansive floor that mimics natural stone. The carving texture adds a subtle depth that catches the light, making the room feel luxurious. Use these tiles as a "stone wallpaper" for TV units or bed backdrops. The 1200mm height covers significant vertical space with fewer joints. Ideal for both flooring and large-format backsplashes. Their resistance to heat and stains makes them as practical as they are beautiful. The textured carving finish provides better slip resistance than high-gloss tiles, making them a safer yet stylish choice for wet areas.
